

German Society for Concrete and Construction Technology

DEUTSCHER BETON- UND BAUTECHNIK-VEREIN E.V. (DBV)

Building Consultancy

DBV-Consultants and their special fields

Region East

Dr.-Ing. Björn Siebert

Kurfuerstenstrasse 129
DE-10785 Berlin

Germany

Phone: +49 (0) 30 236096-13

Fax: +49 (0) 30 236096-14

e-Mail: siebert@betonverein.de

Special fields:

- Concrete in Agricultural Structures (Silos, Fertilizer Containment, Biogas Plants),
- Chemical Attack of Concrete,
- Grout,
- Determination of in-situ Compressive Strength,
- Hot and Cold Weather Concreting,
- Production, Testing, Placement and Conformance of Concrete,
- Durability of Plain and Reinforced Concrete Members,
- Usability of Construction Materials,
- Specialty Concrete (UHPC, SCC, etc.),
- Concrete Repair.

German Society for Concrete and Construction Technology

DEUTSCHER BETON- UND BAUTECHNIK-VEREIN E.V. (DBV)

Building Consultancy

Region North

Dr.-Ing. Lutz Pisarsky

Officially appointed and authorised expert for concrete damages, concrete repair, exposed concrete and waterproof concrete by the Chamber of Commerce and Industry (IHK Lübeck)

Schmiedeberg 1c
DE-22145 Stapelfeld

Germany

Phone: +49 (0) 40 548081-85

Fax: +49 (0) 40 547662-87

e-Mail: pisarsky@betonverein.de

Special fields:

- Multi-storey and underground car parks,
- Exposed concrete,
- Industrial floors,
- Waterproof concrete constructions,
- Durability of concrete and reinforced concrete members,
- Curing of concrete,
- Crack formation in concrete and methods for filling cracks,
- Restoration concepts,
- Measurement and evaluation of thickness of concrete cover,
- Tolerances in building construction.

German Society for Concrete and Construction Technology

DEUTSCHER BETON- UND BAUTECHNIK-VEREIN E.V. (DBV)

Building Consultancy

Region West

Dr.-Ing. Denis Kiltz

Technical Manager Building Consultancy

Bessemerstraße 30
DE-44793 Bochum

Germany

Phone: +49 (0) 0234 414825-20

Fax: +49 (0) 0234 414825-21

E-Mail: kiltz@betonverein.de

Special fields:

- Exposed concrete,
- Concrete cosmetics,
- Waterproof concrete buildings,
- Crack formation in reinforced concrete,
- Multi-storey and underground car parks,
- Durability of concrete and reinforced concrete members,
- Concrete cover and reinforcement,
- Specifics of exposure classes,
- Tunnel construction incl. aspects of tunnel safety,
- Sealing systems.

German Society for Concrete and Construction Technology

DEUTSCHER BETON- UND BAUTECHNIK-VEREIN E.V. (DBV)

Building Consultancy

Region Centre/Southwest

Dipl.-Ing. Wolfgang Conrad

Officially appointed and authorised expert for concrete damages and technology by the Chamber of Commerce and Industry (IHK Wiesbaden)

Abraham-Lincoln-Straße 30
DE-65189 Wiesbaden

Germany

Phone: +49 (0) 611 1403-13

Fax: +49 (0) 611 1403-29

e-Mail: conrad@betonverein.de

Special fields:

- Issues in construction technology of engineering structures (underground railway construction, water and sewage plants, bridges, multi-storey and underground car parks),
- Waterproof concrete constructions,
- Waterproof concrete constructions,
- Exposed concrete,
- Industrial floors
- Crack formation in reinforced concrete,
- Underwater concrete,
- Durability of concrete and reinforced concrete members ,

- Questions on the technical development of contracts and contract interpretation,
- Prequalification,
- Quality management,
- Moderation, arbitration and conciliation.

German Society for Concrete and Construction Technology

DEUTSCHER BETON- UND BAUTECHNIK-VEREIN E.V. (DBV)

Building Consultancy

Region South

Dipl.-Ing. Andreas Meier

Officially appointed and authorised expert for concrete and reinforced concrete structures by the Chamber of Commerce and Industry (IHK Munich and upper Bavaria)

Beethovenstraße 8
DE-80336 Munich

Germany

Phone: +49 (0) 89 90387-27

Fax: +49 (0) 89 90309-27

e-Mail: a.meier@betonverein.de

Special fields:

- Concrete and reinforced concrete structures,
- Multi-storey and underground car parks,
- Planning of waterproof concrete constructions,
- Avoidance and evaluation of cracks in reinforced concrete structures,
- Structural design and approved verification,
- Concrete cover and reinforcement,
- Spacers and chairs,
- Specifics of exposure classes.
